Re: Proposal to make Yucca Mountain a nuclear waste repository

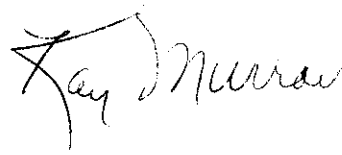

Dear Governor Guinn:

1 I am opposed to the Nuclear Waste site location at Yucca Mountain. If I had known about this proposal before moving to Las Vegas five years ago, I would not have moved here. I'm a little late now, but I have the same public concerns of groundwater contamination--whether it be in the near future or 10,000 years from now. There is a great potential for an earthquake problem, plus the very REAL hazards involved in transporting the nuclear waste to Yucca Mountain.

This plan ignores potential dangers to the environment and to the huge population of people who live here. When guidelines are changed to accommodate a plan from the original plan, it just sends the message to me that the Government wants to hurry up and get this done without any concern for the future of Las Vegas.

I'm praying that this will not happen.

Sincerely,

cc: Dept of Energy
